

Climb Channel Solutions to Partner with IRONSCALES

Eatontown, NJ (January 11, 2022) – Climb Channel Solutions, an international specialty technology distributor and wholly-owned subsidiary of Wayside Technology Group, Inc. (NASDAQ: WSTG), announced a new partnership today with IRONSCALES, a global leader in AI-powered email security solutions.

IRONSCALES' cloud-native, API-based email security software platform is self-learning to continuously detect and remediate advanced threats, such as business email compromise, credential harvesting and account takeover in companies' mailboxes. The platform reduces identification of suspicious mail to seconds at scale across organizations. To complement its phishing detection and incident response capabilities, IRONSCALES' platform includes a phishing simulation and training module to educate employees and further bolster resiliency against cyber threats. Founded in 2014, IRONSCALES serves over 5,000 organizations globally of all sizes and across industries. The company plans to use the new funding to expand its international footprint and continue to grow its platform's capabilities.

"With Digital Transformation at the forefront of enterprise agendas, and the increase in remote workstations, the need to bolster security for the enterprise is greater than ever," said Dale Foster, CEO of Climb Channel Solutions. "We partnered with IRONSCALES to bring our customers a holistic, leading edge email security platform that will strengthen their cybersecurity offerings and protect against all forms of phishing before, during and after incidents."

"As phishing attempts continue to become more sophisticated, it's critical for organizations to adopt an agile defense system. We believe IRONSCALES provides a comprehensive, self-learning solution that continuously evolves to effectively protect digital environments," said Eyal Benishti, Founder and CEO of IRONSCALES. "We look forward to partnering with Climb Channel Solutions to offer their resellers innovative security solutions to help them continue to improve cyber resilience for their growing customer base."
